

**March 23, 2020**

AVSTA Work Family:

I hope that you are all healthy and safe during this historic event. We all have to accept responsibility to do our part to keep all of our friends, family, and fellow citizens protected. If we all stay home and take the prescribe precautions, we will be back at work with our friends and work family soon, and we will again be getting our students to school safely. I know it has been a challenge and a hardship for many, but if we all respond as responsible members of our communities, we will emerge both better and stronger. Below are some points for your consideration:

Based on recommendations made by the Superintendent of Schools for Los Angeles County Office of Education, all the school districts that we serve will be closing through Monday, May 4, 2020 and will resume classes on Tuesday, May 5, 2020. As usual and because of the fluidity of the situation, these dates are subject to change, so check your email and the web site regularly for updates.

Pay for all contracted employees will continue to be maintain at the contracted guarantee.

All salaried employees will continue to get paid at their current rate and conditions of pay.

Paychecks will be distributed March 25, from 12:00 PM – 2:00 PM in the AVSTA foyer. So that we all may remain safe, use only the front door to enter the building. Checks will be distributed from the first window in the foyer. Please do not come to pick up you pay studs as those will be distributed when we return. Please do not come into the building through any other entrance for any other purpose.

I will be meeting with the cabinet this week to formulate a calendar that will get us up to speed prior to the opening of school. Please check your email and the Agency web site for any and all updates of the calendar.

Stay at home and stay safe!
